

## **WORLD AIDS DAY FRIDAY 1<sup>ST</sup> DECEMBER 2023**

The Cayman AIDS Foundation Marks World AIDS Day 35: Remember and Commit

The Cayman AIDS Foundation is proud to join the global community in commemorating the 35th World AIDS Day with the theme "World AIDS Day 35: Remember and Commit." As we reflect on the journey of the past 35 years, we remain steadfast in our commitment to serve the Cayman Islands, and we are more determined than ever to reinforce our support for the citizens of this remarkable nation.

World AIDS Day, observed annually on December 1st, is not just a day of remembrance; it is a day of action and unity. In 2023, we remember the countless lives affected by HIV/AIDS, their stories, and their resilience. We honor the progress made in combating this disease and express our unwavering support to those currently living with HIV.

The Cayman AIDS Foundation continues to be at the forefront of the fight against HIV/AIDS. We provide vital services, including education, prevention, testing, and support to individuals and communities across the Cayman Islands.

Over the years, our commitment has remained unwavering. We have been dedicated to reducing the transmission of HIV, eradicating stigma, and enhancing the quality of life for those affected by the virus.

In keeping with this year's theme, "Remember and Commit," the Cayman AIDS Foundation is recommitting itself to serve the citizens of this nation. We acknowledge that there is much work to be done, and we are ready to tackle the challenges ahead. We are determined to increase awareness about HIV and AIDS, working collaboratively with the government, citizens, and all stakeholders to ensure that every person living in the Cayman Islands is informed and supported.

Our hope is that this year's World AIDS Day will inspire individuals, the government, and organizations to become more aware and committed to ending the HIV/AIDS epidemic.

We encourage everyone to remember those we have lost, support those living with HIV, and commit to a future free from the stigma and discrimination associated with this disease.

As we approach World AIDS Day on December 1st, we invite the Cayman Islands community to join us in remembering and committing to a brighter and healthier future. Together, we can make a difference and achieve our goal of an AIDS-free generation.
